Note: To supplement our consolidated financial statements presented in accordance with GAAP, Kensey Nash Corporation uses non-GAAP measures of adjusted earnings per share, which are adjusted from our GAAP results to exclude certain expenses. These non-GAAP adjustments are provided to enhance the user's overall understanding of our historical and current financial performance and our prospects for the future. We believe the non-GAAP results provide useful information to both management and investors by excluding certain expenses that we believe are not indicative of our core operating results.

These non-GAAP measures will provide investors and management with an alternative method for assessing Kensey Nash's operating results in a manner consistent with future presentation. Further, these non-GAAP results are one of the primary indicators management uses for planning and forecasting in future periods. The presentation of this additional information should not be considered in isolation or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States.
